

Nino Intensive

08878 A very reliable cot with 4 lowerable sideguards to guarantee an optimal accessibility.

Frame

- The frame is made of round steel tubes.
- Equipped with 4 integrated IV rod cases and setting knobs.
- The bed frame rests on 4 design castors Ø 100 mm with brakes.

Mattress platform types

- **1. Fixed mattress platform:** consists of a metal frame and a solid laminate plate, thickness 6 mm.
- **2. Inclined mattress platform:** consists of a metal frame with a removable solid laminate mattress platform plate. Mattress platform inclination is possible up to $\pm 12^\circ$ by means of 2 telescopic adjusts.
- **3. Inclined 2-section mattress platform:** consists of a metal frame with 2 removable solid laminate mattress platform plates. Inclined headrest up to $\pm 70^\circ$. Both mattress platform sections are equipped with a flexible handle that can only be operated on the outside of the bed.

Sideguards

- The sideguards are made of round steel tubes.
- The distance between the round rails is 60 mm at the most.
- The sideguards can be put in 3 different positions: lowest position, middle high position (33,5 cm) and highest position.
- The lowerable sideguards glide over 2 solid steel guide rails.
- The sideguards can only be unlocked by using your both hands.

The cots are made in accordance with the European norm EN 716 and comply with the Medical Devices Regulation EU 2017/745
