

# Artena Care

**03585** The Artena nursing bed is a height-adjustable bed that complies with all quality, design and functionality demands of both the staff and the patient.

## Carriage

- Rectangular tube frame.
- Stable high/low movement.
- High-quality design castors Ø 125 mm, with separate brakes.
- Design pedal to activate the central brake mechanism (\*).
- Hidden central braked castors (Ø 50 mm) are available by means of synthetic cover caps (\*).

## Mattress platform

- Three- or four- (\*) section mattress platform.
- The backrest is electrically adjustable up to  $\pm 70^\circ$ .
- The knee rest is electrically adjustable up to  $\pm 34^\circ$  (in case of 4 sections).
- The footrest is manually adjustable for the Fowler position (in case of 4 sections).
- The legrest is manually adjustable up to  $\pm 14^\circ$  (in case of 3 sections).
- Electric manipulations of the mattress platform sections are equipped with a clamp safety.
- The mattress platform consists of rounded steel mattress platform profiles.
- The mattress platform sections are equipped with openings for patient restraint straps.
- The backrest and footrest are equipped with 2 synthetic mattress holders.
- Telescopic bed extension possible up to 20 cm (not with Pollux sideguards).
- The head end is equipped with 2 cases to install an IV rod or a lifting pole.
- No visible fastening bolts in the foot panel.
- The bed panels are made of solid oven-dried beech (\*).
- Rounded corners to increase the passive safety.

## Electric bed manipulations

- The electric bed functions can be activated by means of a hand switch.
- The hand switch is equipped with a preprogrammed sleeping function.
- An optional total lock (\*) makes it possible to switch off several functions with 1 single button.

### Paneltypes
