

Mattress

Aron+ dayhospital (4+10)

13758 Anti-decubitus mattress especially designed for use on high/low beds. The mattress consists of 4 cm visco-elastic foam and 10 cm fire retardant comfort foam. The mattress cover is fitted with velcro straps for attachment to the mattress platform.

Core

- The core consists of:
 - An upper layer of 4 cm of high quality visco-elastic memory foam with unique thermo active properties and a density of 55 kg/m³.
 - A highly elastic lower layer of 10 cm fire retardant polyurethane foam with a density of 45 kg/m³. The polyurethane foam is very elastic, fire retardant and thermosetting.
- Pressure relieving with optimum temperature sensitivity.
- Suitable for medium risk of decubitus.
- The mattress retains its elasticity even after frequent use.
- Bacteriostatic treatment against pathogenic and allergenic micro-organisms.
- Smooth and excellent flexibility for use on an adjustable bed.

Cover

- The material of the cover is completely adjusted to optimal pressure distribution and a low frictional resistance.
- Removable, with zipper on a long and short side for easy replacement.
- Fitted with velcro straps for attachment to the lying surface.
- Washable at 95 °.

Dimensions

13758 | Aron+ dayhospital Comfort mattress (4+10)
- L 195 x W 78 x H 14 cm

Materials and finishing

- Core: Visco-elastic memory foam (55 kg/m³), polyurethane foam CMHR (45 kg/m³).
- Cover: Polyurethane coating on a base of polyester.
- The mattress and the cover meet fire standard CRIB 5.
- The mattress and cover are ecologically produced without CFCs. Neither the production nor the possible destruction processes are environmentally harmful.
- Withstands the common cleaning products.
